

# WHISPER WASH®

## PROFESSIONAL ROTARY SURFACE CLEANER

### FEATURES

Whisper Wash® provides a complete line of flat surface cleaners to the pressure washing industry made in the USA. Our initial commitment to quality is displayed in the superior engineering of the Whisper Wash Classic. Additionally we offer you the added benefits of cleaning large flat surface areas with The Big Guy, Ground Force "Flip-N-Fold," and the Aqua Pro, or the flexibility in design choices provided by the Lil' Guy or our Ultra Clean line. Whisper Wash pressure washing systems provide proven economical benefits to industrial pressure cleaning users throughout the world.

Collapsible at the mid-section, Whisper Wash Surface Cleaners are easy to use and provide powerful industrial flat surface cleaning results. Whisper Wash's signature balanced spray bar and twin thrust bearing swivel design ensure efficient cleaning. They are capable of running off of 2000-5000 psi hot or cold water pressure washers. Ergonomically designed, Whisper Wash Surface Cleaners eliminate operator fatigue and increase safety.

### APPLICATIONS

- » Driveways & Sidewalks » Parking Lots » Restaurants » Warehouse Floors » Service Stations » Pool & Patio Decks
- » Loading Docks » School Yards » Public Facilities » Garage Floors » Stadiums » Marina Docks
